Attachment Theory

Module Overview

1

Module 1 Overview

- **The module contains 12 lessons**
  - Each lesson has a video to review
  - Lecture slides for download appear under the video lecture
  - Some lessons include practicum to complete
    - *These practicum can be downloaded and appear under the lecture slides*
  - Some lessons also include ancillary material – such as scoring instructions to score attachment measures
    - *These ancillary materials can also be downloaded*
- **The module has recommended reading**
  - These readings do not need to be undertaken during the course. You can do so, but they are there as your own resource library and further professional development
- **The module includes a 3-hour live webinar**
  - During this webinar we will have a Q & A time, go over the practicum that form part of module 1 and conduct demonstrations and interactive group-based activities
- **The module begins with a self-reflective survey and activity**
