Practicum: Applications of Security Priming I

Develop an outline of what a security prime would look like for your case study client

1. What form would the prime take and why?

2. What critical content would you need to include in the prime to activate a sense of attachment security?

Practicum: Applications of Security Priming II

In reflecting on your own practice context (physical environment, virtual environment, intake, etc.)

1. What potential security priming stimuli would work well?
